

CO_2 (carbon dioxide)	
-----------------------------------	--

Contains different types of atoms, elements or compounds not all chemically joined		Sand and sugar	
--	--	----------------	--

Contains only one type of atom	
--------------------------------	--

Salt and water		H_2O (water)	
----------------	--	---------------------------------	--

N_2 (nitrogen)	
----------------------------	--

Oxygen (O_2)		Contains more than one type of atom, chemically joined together	
----------------------------	--	---	--
